BELKIN DESKTOP POWER HUB

Convenient charging on the desk.

Power monitors, hard drives, laptops, and other desktop items while also charging USB-based devices with Belkin's Desktop Power Hub.

The Desktop Power Hub is a desktop charging station that brings easily reachable power and recharging access to the desktop. In addition to 2.1 A USB charging for tablets and phones, the Desktop Power Hub doubles as a three-port surge protector for power adapters and other desktop products like monitors to provide simultaneous power to multiple computing devices and peripherals. Elegantly designed with a piano black gloss finish and a built-in stand to hold a tablet or phone at a convenient viewing angle, the Desktop Power Hub makes multi-device charging accessible and convenient.

FAST
Standard power outlets and USB charging ports make it easy to plug in and unplug power cords to quickly charge multiple devices with one simple solution.

SIMPLE
With a sleek black design, Belkin Desktop Power Hub features a convenient stand to hold any tablet or phone for viewing while charging.

SAFE
The Belkin Desktop Power Hub doubles as a three-port, grounded surge protector for power adapters and other desktop products to make sure your devices are safe and secure.

Key Features and Benefits

- Easy access to power outlets lets you charge whenever you need it
- Fast charging station keeps all of your mobile devices ready to go
- Universal stand holds any tablet or phone so you can view while charging
- 3 USB charging ports combine 2.1 A to provide simultaneous power
- 3 standard power outlets offer versatility
- Sleek black design complements any desktop environment
- LEDs indicate hub is grounded to protect your connected devices

BELKIN DESKTOP POWER HUB

HARDWARE SPEC	
UL Approved	Yes
Outlet (Total)	3
Electrical Rating	12 A / 120 VAC / 60 Hz / 1440 W
Auto Shut Down	Yes
Cord Length (FT)	5 FT (16 AWG)
Maximum Handling Current (Amp)	12 A
Surge Energy Joule Rating (TOTAL)	1080 J
Maximum Spike Current (Amp)	72,000 A
Maximum Spike Voltage (V)	6 KV
X2 Capacitor (uF)	0.1 uF
Frequency	150 KHz – 100 MHz
Attenuation (dB)	40 dB
Protected LED Indicator	Green
Grounded	Green

USB SPEC	
Number of Ports	3
Output 5 V / 2.1A for 3 Ports	Shared 2.1 A
Output Range	4.75 Vdc~5.25 Vdc
Over Voltage Protection	6.3 V
Over Current Protection	2.1 A~2.4 A
Output Ripple Current	<150 mV p-p
